AI META-LITERACY • HUMAN AGENCY • RESPONSIBLE AI USE

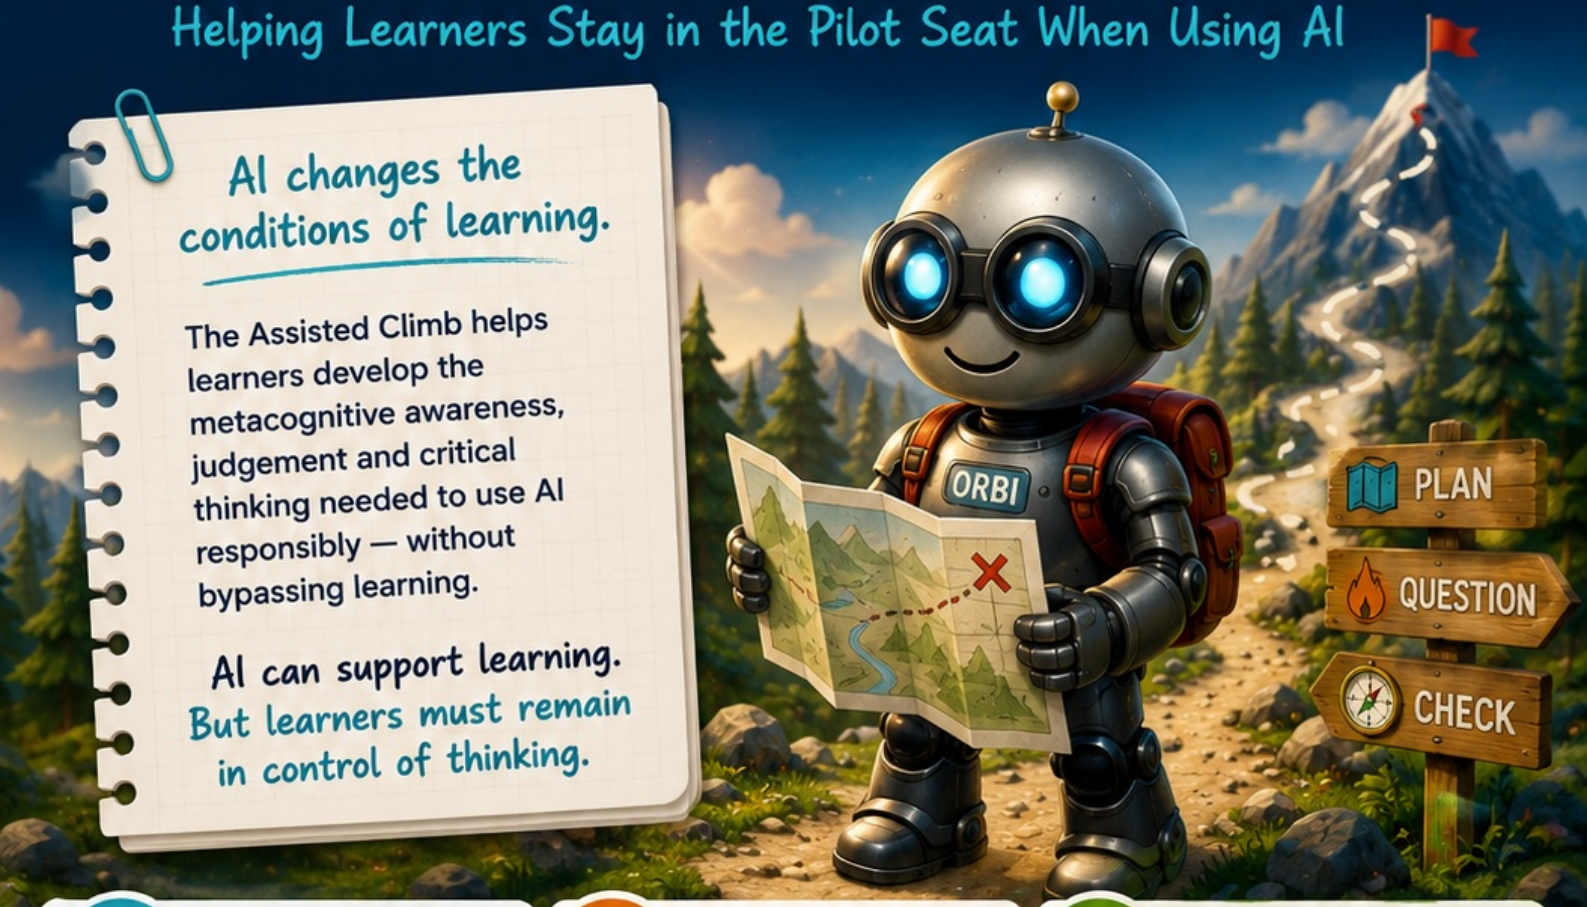

THE ASSISTED CLIMB

Helping Learners Stay in the Pilot Seat When Using AI

AI changes the conditions of learning.

The Assisted Climb helps learners develop the metacognitive awareness, judgement and critical thinking needed to use AI responsibly — without bypassing learning.

AI can support learning. But learners must remain in control of thinking.

THE MAP

Plan before you begin.

- Understand the task
- Organise thinking
- Activate prior knowledge
- Plan the learning journey

THE TORCH

Question as you learn.

- Explore ideas
- Clarify confusion
- Deepen understanding
- Compare perspectives

THE COMPASS

Check before you decide.

- Verify information
- Evaluate reliability
- Identify bias
- Protect judgement

FLEXIBLE DELIVERY PATHWAYS

We work with you, your staff and your learners.

WHOLE-SCHOOL DAYS

Immersive collapsed timetable workshops and AI learning experiences.

STUDENT PROGRAMMES

Structured AI Meta-Literacy lessons and guided classroom activities.

TEACHER PROFESSIONAL LEARNING

AI-aware teaching, learning and assessment support.

ONLINE & HYBRID DELIVERY

Live online workshops, virtual support and flexible implementation options.

MODULAR IMPLEMENTATION

Focus on specific areas including metacognition, verification or AI literacy.

BESPOKE SUPPORT

Tailored programmes designed around your context, priorities and goals.

TRUSTED

by Schools, Trusts & Educational Organisations

- Schools
- Multi-Academy Trusts
- Teacher Training Providers
- Universities
- Leadership Teams
- Educational Organisations

Areas of Support

- AI Meta-Literacy
- Teaching & Learning
- Curriculum Integrity
- Assessment Design
- Metacognition
- Responsible AI Use

> We help learners think deeply, question confidently and use AI with wisdom and responsibility.
